

Restaurant::setDescription

```
graph LR; A[Restaurant::setDescription] --> B[Restaurant::descriptionChanged]; B --> B;
```

The diagram illustrates a sequence of events. It begins with a gray rectangular box containing the text 'Restaurant::setDescription'. A straight blue arrow points from the right side of this box to a white rectangular box with a black border containing the text 'Restaurant::descriptionChanged'. From the top of the white box, a curved blue arrow loops back to the top of the same box, indicating a self-loop or a recursive call.

Restaurant::descriptionChanged
