

Restaurant::setType

```
graph LR; A[Restaurant::setType] --> B[Restaurant::typeChanged]; B --> B;
```

The diagram illustrates a sequence of events. It begins with a gray rectangular box containing the text 'Restaurant::setType'. A straight blue arrow points from this box to a white rectangular box with a black border containing the text 'Restaurant::typeChanged'. Above the 'Restaurant::typeChanged' box, a curved blue arrow starts and ends at the same box, representing a self-loop or a recursive call.

Restaurant::typeChanged
