

IUTFood-Project-client
-codes/IUTFoodServer/restaurantownermanager.h

```
graph BT; A["IUTFood-Project-client<br>-codes/IUTFoodServer/restaurantownermanager.cpp"] --> C["IUTFood-Project-client<br>-codes/IUTFoodServer/restaurantownermanager.h"]; B["IUTFood-Project-client<br>-codes/IUTFoodServer/server.cpp"] --> C;
```

The diagram illustrates a dependency relationship in a C++ project. At the top, a grey rectangular box represents the header file: `IUTFood-Project-client` and `-codes/IUTFoodServer/restaurantownermanager.h`. Below it, two white rectangular boxes represent source files. The left box is `IUTFood-Project-client` and `-codes/IUTFoodServer/restaurantownermanager.cpp`. The right box is `IUTFood-Project-client` and `-codes/IUTFoodServer/server.cpp`. Two blue arrows point from the top of each source file box to the bottom of the header file box, indicating that both source files include or depend on the header file.

IUTFood-Project-client
-codes/IUTFoodServer/restaurantownermanager.cpp

IUTFood-Project-client
-codes/IUTFoodServer/server.cpp
