

ChatMessage::ChatMessage

```
graph LR; A[ChatMessage::ChatMessage] --> B[ChatMessage::fromJson]; B --> C[ChatMessage::setId];
```

The diagram illustrates a sequence of three operations related to the ChatMessage class. It consists of three rectangular boxes arranged horizontally, connected by blue arrows pointing from left to right. The first box, labeled 'ChatMessage::ChatMessage', and the second box, labeled 'ChatMessage::fromJson', are white with a thin black border. The third box, labeled 'ChatMessage::setId', is shaded gray with a thin black border. The arrows indicate a sequential flow from the first operation to the second, and then to the third.

ChatMessage::fromJson

ChatMessage::setId
