

MenuItem::setName

```
graph LR; A[MenuItem::setName] --> B[MenuItem::nameChanged]; B --> B;
```

The diagram illustrates a sequence of events. It begins with a gray rectangular box containing the text 'MenuItem::setName'. A straight blue arrow points from the right side of this box to the left side of a white rectangular box with a black border. This second box contains the text 'MenuItem::nameChanged'. From the top of the 'MenuItem::nameChanged' box, a curved blue arrow loops back to the top of the same box, indicating a self-call or a recursive action.

MenuItem::nameChanged
