

Order::setCustomerId

```
graph LR; A[Order::setCustomerId] --> B[Order::customerIdChanged]; B --> B;
```

The diagram illustrates a sequence of events. On the left, a gray rectangular box contains the text "Order::setCustomerId". A straight blue arrow points from the right side of this box to the left side of a white rectangular box on the right. This white box contains the text "Order::customerIdChanged". Above the white box, a curved blue arrow starts from its top edge and points back to its top edge, indicating a self-loop or a subsequent action within the same context.

Order::customerIdChanged
