

AuthSystem::changePassword

AuthSystem::login

SecurityUtils::verifyPassword

```
graph LR; A[AuthSystem::changePassword] --> C[SecurityUtils::verifyPassword]; B[AuthSystem::login] --> C;
```

The diagram illustrates two method calls. On the left, two white rectangular boxes with black borders contain the text 'AuthSystem::changePassword' (top) and 'AuthSystem::login' (bottom). On the right, a gray rectangular box with a black border contains the text 'SecurityUtils::verifyPassword'. Two blue arrows originate from the right side of the white boxes and point towards the left side of the gray box, indicating that both 'changePassword' and 'login' methods in the 'AuthSystem' class utilize the 'verifyPassword' method from the 'SecurityUtils' class.
